Grafische Vorschau

The main diagram is a schematic on a grid background. It features a power source at the bottom left, connected to a switch labeled Q1. The circuit then passes through a fuse labeled V1 and a transformer labeled T1. The secondary side of the transformer is connected to a motor labeled M1. A terminal block with terminals 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 is shown on the right side of the diagram.
